

## Piñata Project

Hola Familias,

The seventh graders will be designing and creating their own piñatas! They will be working in groups of 3-4 students. Each student is responsible for designing a sketch of their piñata, providing all the materials required to make it, participating in the creation of the piñata, and completing their design.

This project is worth 100 points. Your child will be graded based on the following requirements:

- Piñata design (10 points)
- Provided materials (35 points)
- Participation (25 points)
- Final Product (30 points)

Your child can bring in any materials that he/she thinks will make their project unique. Examples include: pipe cleaners, pom poms, googly eyes, glitter, stickers, streamers, etc. Your child's group is required to bring the following materials:

- Elmer's Glue (2 bottles)
- Flour (1 bag)
- Newspaper
- Scissors
- Balloons (2)
- Streamers (**\*Colors depend on group design**)
- Candy of their choice (**\*No candy containing peanuts**)

Thanks for all your help in making this a special experience for your child!

Sincerely,

Señora Peace
